Commissions paid directly into your trading account.

## **Funding/Capitalizing**

### **Managed Account**

Pine Trading Managed Accounts is a market place of carefully selected external money managers, each with distinct strategies and trading styles that clients can choose to engage to manage their funds. We only work with money managers with proven track records, solid risk management processes and significant experience in the FX markets. We are constantly looking for new potential managers to work with, and always evaluating the performance of our existing ones. Regardless of your account type or balance, all clients receive the same unparalleled execution speed and industry best customer service. We offer multiple account types depending on our clients' preference.

<b>STARTER</b> <b>30%</b>	<b>STANDARD</b> <b>40%</b>	<b>ULTIMATE</b> <b>50%</b>
\$2000 (minimum)	\$10,000 (minimum)	\$50,000 (minimum)
\$99,99.00	\$49,999.00	\$199,999.00

*Looking for something more customized? "Contact Us" [support@pinetrading.org](mailto:support@pinetrading.org) to discuss your specific trading needs with one of our account managers.*

### **Cryptocurrency Mining**

No matter which package you choose, you are renting the latest technology, which guarantees maximum performance for as long as possible. Also, the rigs you rent consume very cheap electricity and are cooled efficiently, thanks to the optimal locations of our mining hardware. To top this, there is no waiting for delivery and no downtime, which means you are not wasting even a second of mining. Computers are really good at solving these mathematical problems, so the Bitcoin Network purposely makes the solution more and more difficult, otherwise all of the bitcoins would be mined in a couple of minutes. This is why there are already many highly specialized hardware on the market, their only purpose being exclusively Bitcoin mining.

As new models come out quite frequently, everyone must regularly optimize their mining gear, in order to stay competitive. Once a new mining rig is introduced to the market, the old ones quickly become outdated and therefore unprofitable. At the same time this gradual development of the technology increases the overall difficulty of mining again. The result is a never ending circle of the constant need to optimize. This explains why it's a must to start with the best available hardware and to start immediately in order to mine profitable for as long as possible as well as not to lose a minute of precious mining time.

We have different managed Mining Plans:

**Ruby Miner-** \$ 500 (for beginners)

**Emerald Miner-** \$5000 (for the middle class)

**Diamond Miner-** \$20,000 (for small business enterprise/start up)

**Red Diamond Miner-** \$50,000(for big business ventures)

*\*\* Time is valuable, but it is even more valuable on the Bitcoin market!*

### ***Initial Deposit***

Clients need to make an initial deposit with a minimum amount of \$1000 (on all services aside the trade signals and retirement) or the local currency equivalent to start investing via Pine Trading platform. Clients can make deposit using their Bitcoin, Ethereum, Bitcoin Cash and other Crypto service provided, Money Gram, Western Union or by Wire Transfers.

Clients account will be credited with funds after receipt of funds have been confirmed. Trading/Investment of clients fund begins in the next session after client's registration.

For further details on how to make initial and subsequent deposits, please contact [support@pinetrading.org](mailto:support@pinetrading.org)

### **Withdrawal Methods**

The process of withdrawing available and eligible funds from your Pine trading account can be executed at any point in time. After which, you have to make the following 3 steps:

1. Click the "Withdraw" button.
2. Enter the amount you wish to withdraw.
3. Submit your withdrawal request.

Once you have done so, Pine's accounting department will handle the rest. You can expect the processing of your funds to take up to 1-5 business days. After it is completed, you will receive an email notifying you of your successful withdrawal of funds.

At any given time, you will be able to access the status of your request through viewing your transaction history in your trading account. Your withdrawal request can be terminated while it is still within the "pending" stage. This can be done by simply clicking on the "cancel" button.

For further clarification or assistance, feel free to contact our customer service team through our 24/5 Livechat or send us an email directly.

### ***Payouts***

Traders' funds are available for withdrawal any time. From one year to the next we're increasing our payout speed and improving our trading education. As a result, more and more people are prospering with us.

### **Limitation of Liability**

The Company does not provide any warranty as to the accuracy, adequacy or completeness of the information and materials contained in its websites and expressly rejects any liability for any errors and/or omissions in this regard. The Company does not provide any warranty of any kind implied expressed or statutory, including but not limited to the warranties of non-infringement of third party rights, title, merchantability, fitness for a particular purpose and freedom from computer virus, in conjunction with the information and materials thereof.

Hyperlinks to other internet resources are followed at your risk; the content, accuracy, opinions expressed and other links provided by these resources are not controlled, investigated, verified, monitored and/or endorsed by the Company. The Company shall not be liable for a) any damages, losses or expenses which arise in connection to this website or its use or inability to use by any person or in connection to the inability to execute an order, error, omission, interruption, fault, delay in operation or transmission, computer viruses, communication failure or line or system failure, even if the Company or its representatives have been informed about the possibility of such damages, losses or costs and b) for errors or inaccuracies in the transmission process of data and or Binary Options

trading or any instructions from the client/visitor of the site, interference, fraudulent impersonation, breaking of secret access codes, erroneous recording or transmission of message or system failure due to force majeure or for whatever other reason which is not due to breach of the above either by the Company.

The Company shall not be liable for any damage that may occur to the hardware or software of the user that may arise as a result of the use of this website and/or land or in connection of this website with other websites/hypertext links or internet resources.

### ***Force Majeure***

If it has reasonable grounds, the Company is entitled to claim the occurrence of force majeure events. The Company must take proper steps to inform the Client about the occurrence of the force majeure events. Force majeure events include (but are not limited to):

a) any action, event or phenomenon (including, but not limited to, any strike, mass rioting or civil unrest, terrorist attacks, wars, natural disasters, accidents, fires, floods, storms, blackouts, communication, software or electronic equipment failures, malfunctions in any type of hardware or software, instability in the quote feed, any interruptions or failures in the liquidity provider service, etc.) that, in the reasonable opinion of the Company, resulted in destabilization of the market or markets for one or several assets (instruments);

b) suspension, liquidation or closure of any market or the absence of any event on which the Company basis quotes, or the imposition of limits or special or non-standard trade conditions in any market or with respect to any such event.

If the Company establishes a force majeure event, the Company may (without prejudice to other rights of the Company) take any of the following actions without prior written notice and at any time:

- a) cancel any or all open trades of the Client;
- b) suspend or alter the application of one or all provisions of the Agreement during which the force majeure event makes it impossible for the Company to fulfill such provisions;
- c) perform or, vice versa, not perform any actions with respect to the Company, the Client and other clients if the Company finds it reasonable in these circumstances on sufficient grounds.

The Company assumes no liability for breach (improper discharge) of obligations if force majeure events interfered with that discharge.

## Core Team and Advisors

**Kevin Morgan**
